Loans on collateral, 10,000.00	
Loans on other securities, 10,000.00	
Total assets, \$200,000.00	

Ratio of Assets to Liabilities, 145 per cent.

THE AMOUNT OF POLICIES ISSUED IN 1871 EXCEEDED THAT OF 1870 BY JUST \$3,000,000, BEING AN INCREASE OF 50 PER CENT.

The distinctive and peculiar advantages of the Plan of Life Insurance adopted by the Universal are:

- FIRST.—Premiums from twenty to thirty per cent. lower than those charged by mutual companies.
- SECOND.—A still greater reduction in the cost of Insurance, by a participation in the legitimate profits of the business by the policyholders, on a basis similar to that by the stockholders.
- THIRD.—A provision in its policies, whereby the safety afforded by a high rate of premium is secured without expense or unnecessary outlay to the policyholder; thus avoiding the inconvenience and loss resulting from the payment of an excessive premium; no less than the uncertainties and complications of local "evidences," with all their disputed methods of division, totally inapplicable, and generally unsatisfactory to the insured.
- FOURTH.—The guarantee contained in its policies of a definite and liberal surrender value, at the end of each year, in paid-up life, or paid-up term insurance, at the option of the policyholder.
- FIFTH.—No restrictions as to occupation, residence or travel, except in cases clearly and manifestly of an extra-hazardous character.
- SIXTH.—Ample security. The ratio of assets to liabilities is 145 per cent.; or in other words, the Company has \$145 for each \$100 of its indebtedness. (New York State valuation.)
- The managers of the company earnestly ask a candid consideration of their plans, which have received the full approval of the highest actuarial and mercantile authorities in the country, and are rapidly gaining the confidence and support of the public.

OFFICERS.

WILLIAM WALKER, President.
HENRY J. FURBER, Vice-President.
JOHN H. BEWLEY, Secretary.

THE BULLETIN.

Published every morning, Monday excepted.

BULLETIN PRINTING HOUSE.

On several occasions, mention has been made in these columns of THE BULLETIN, of improvements made from time to time, in THE BULLETIN office, but no connected details have been given of the various departments and the material which constitutes the complete establishment.

The present seems an opportune moment in which to present these details succinctly, so that the public may form some idea, approaching accuracy, of "how it is done" in THE BULLETIN Printing House.

IN THE REAR

of the main building are located the News Composing, Job and Steam Press Rooms.

THE COMPOSING ROOM.

In which many hands are employed "at case" and "on the forms," is snug and neat, well lighted and ventilated, and contains an immense amount of printing material.

To this department we have lately added new type, and stands of the latest patterns.

THE JOB ROOM

is furnished with the very best material—all the latest styles of Job Printing type, borders, etc. We have in use THREE HUNDRED FONTS of type, and our facilities for printing all kinds of large Posters and all other kinds of Job Printing from the elaborate circular of many colors, to a cent ballad, both in respect of style and in price, are unequalled by any office in Southern or Central Illinois. To this large stock, new patterns are constantly being added. Six skilled mechanics are employed in this department, under the immediate supervision of Mr. Samuel M. Dickson, a master mechanic—a Job Printer whose good taste and skill have given him an enviable reputation in his trade.

IN THE BOOK DEPARTMENT

we are prepared to print books of a thousand pages or pamphlets of two, in type of any size, at prices in competition with those of the larger cities of the East and West.

THE PRESS ROOM.

is in charge of Mr. L. Cassett, a thorough and experienced workman. Here may be seen our new FOUR-ROLLER COTTRELL AND BARROCK DRY CYLINDER PRESS, which cost where it stands \$4,000—a press superior to the celebrated Hoe press, and on which the finest printing can be done; also, our half-medium UNIVERSAL PRESS, which is, we have no hesitation in saying, the best bed and platen press manufactured in this or any other country. We have also in constant use the Gordon and Degener presses, all driven by a TEN HORSE POWER ENGINE, built especially for THE BULLETIN, by Messrs. Reed & Mann, and which has given us unequalled satisfaction. It is just the thing—a thing of beauty and works like a charm. To the building of this engine Mr. Mann, who has grown gray in his business and knows all about it, gave his special attention, and we have to thank him for a job we have tested and not found wanting in any particular.

The Boiler, Engine and Shafting were put in place, and all the machinery of the Press Room arranged and fitted up by Messrs. Rennie & Co., the work being done under the supervision of Mr. Charles Slack, to whose skill and industry we are under many obligations.

RENDERED.

In this department Mr. L. C. Huels, late of St. Louis Mo., is the superintendent. He is a thorough master of his business, and, we venture to say, no superior in the United States. If any doubt the assertion, we recommend them to pay the hindery a visit, and they will be shown specimens of hand gilt work for covers of books, etc., of great beauty and elaborate design, from the medieval style to that of the most modern. It need, therefore, be hardly necessary to say, that all work in this establishment for finish and durability cannot be excelled, and the prices cannot be competed with.

The machinery is all of the very best description, amongst which are a Ruling machine, a Hickock standing press, a Hoole Paging machine, a span new Brom & Carter card cutter, costing \$250, Table shears, and a complete set of finishing tools. All work warranted, of whatever kind. Persons having magazines, to be bound, old books rebound, or gilding in leather, etc., should bring them on immediately before the Fall rush.

IN CONCLUSION.

We have built up in Cairo, from a very small beginning, a Printing Establishment and Book Bindery complete in all their details, an establishment in which every Egyptian should take a pride. We ask no bonus to maintain us but we do ask that our people will give us a liberal patronage. We can do work at as low figures and as well as similar work can be done in St. Louis, Chicago or Cincinnati, and we therefore ask that our home people shall patronize THE BULLETIN in preference to printing offices in the cities we have named.

BLANKENBURG AHEAD!—Wines and Cigars! oldest and choicest, at the EXCELSIOR SALOON, opposite the Post Office. Finest of Liquors, Free Lunches and music every day. The great Liberal and Democratic, Greely & Brown Drinks—Weis Beer, is made a specialty, and Fredricks himself upon keeping the freshest and coolest in the city. Lemonades the coldest, mixed drinks and music the finest Go there. 6-27tf

LOUIS BLATAU'S saloon deserves the popularity in to which it has grown. It has been very handsomely fitted up, and is so comfortable that it is a pleasure to while away a spare hour there. The bar is supplied with all kinds of fine liquor and wines, and with the best of Fresh Lager Beer, and Weiss Beer that in deliciousness cannot be excelled. A lunch, free to patrons, is spread every day, and an article of Switzer Cheese, the best in the market, is always on hand. Mr. Blatau invites the public to give him a call, on Eighth street, between Commercial avenue and Ohio levee, opposite the Perry House, in Rizer's building. 7-2 d & f
